

BODYWASH

Antiseptic solution based-on chlorhexidine digluconate

HISEPT BODYWASH is a chlorhexidine-based antiseptic solution, with extremely persistent broad-spectrum activity. This product is ideal for preoperative bathing, bedsore prevention and open wounds cleansing. The product provides fast-acting antimicrobial efficacy in 3 minutes against a wide spectrum of resistant microorganisms such as MRSA and VRE. The antiseptic formulation consists of chlorhexidine digluconate 2% and excipients that provide potent antimicrobial activity and moistizing effect at the same time.

Characteristics

- Suitable for pre-operative antiseptic bath and daily bath in intensive care units (ICUs)
- Broad-spectrum activity
- Leaves skin soft and refreshed
